

A wildlife observatory

To observe the high mountain wildlife is an experience ease to get hooked on if the environment is enabling. In Valls d'Àneu a large number of species representing a great attraction for the visitor can be seen and experienced first handed. Wildlife into the wild!

This Center of the Pyrenean Fauna allows you discover and see up close the most emblematic species of wildlife: lynx, bearded vultures, western capercaillie, European roe deers, beech martens, genets, Eurasian eagle-owls, wildcats, foxes, etc. through a guided tour leaded by an environmental educator expert.

Many other activities are also offered: nocturnal fauna, animal trace activities or the observation of birds of prey through the feeding point for vultures.

Additional information:

All the activities of MónNatura Pirineus are conducted by expert environmental educators (biologists, environmentalists) that make the activity suitable for everyone.
